

## ANNUAL REPORT 2007

### PREGNANCY AND RESOURCE CLINIC OF CASPER

#### MISSION STATEMENT

**To erase the need for abortion in our community through effectively reaching pregnant, at-risk women by transforming their fears into confidence.**

We exist to reach out to the unborn Child and Mother, and those they influence, with the life-changing love of Jesus Christ.

'I have set before you life and death, blessing and cursing; therefore **choose life**, that both you and your descendants may live; that you may love the Lord your God.'  
Deuteronomy 30:19-20

Care Net Pregnancy and Resource Clinic of Casper is a Christian, life-affirming service organization providing emotional, spiritual and material support to women and families dealing with an unplanned pregnancy. Our goal is to empower women to make an informed choice about their pregnancy options. We do this by educating about abortion procedures as well as the emotional, physical and spiritual effects of abortion. In addition, it is our goal to see women healed from the sorrow and guilt that often follow abortion. We offer confirmation of pregnancy as well as education on abortion, alternatives to abortion, relationships and sexual health. Testing for Chlamydia and Gonorrhea, two infections that can negatively affect a woman's future fertility, are also available. All of our services are free of charge.

The Clinic is open Tuesday, Wednesday and Thursday and help is available 24/7 on our toll free Options Line (1-800-395-HELP). Trained patient advocates are here to make sure our patients fully understand all of their options. A laboratory quality pregnancy test is administered by our staff nurse. Women who test positive and are at risk for an abortion are offered a free ultrasound performed by a registered nurse trained in

limited obstetrical ultrasound. Those who have a positive test are invited to participate in our long-term patient care program, *Mommy and Me*. An average of 10 to 15 young women each month receive mentoring, material resources and the practical skills they need to parent or to make an adoption plan for their children through our *Mommy and Me Program*.

Care Net Pregnancy and Resource Clinic of Casper collaborates with many other agencies in town and is able to refer our patients for medical, financial and spiritual help. Adoption is presented in a caring, non-pressured atmosphere. Though not an adoption agency, the Clinic is in a unique position to help dispel the myths and misinformation that surround the subject of adoption. Negative test patients who are unmarried are encouraged to consider the benefits of sexual abstinence until marriage and are invited to participate in our *Sexual Integrity Program*. We also offer lay counseling for pregnancy-related issues and for women suffering the effects of abortion, known as post-abortion syndrome.

Care Net PRC first opened its doors in 1987 in a little blue and white house at 214 S. Grant Street. Known then as The Caring Center, the organization was headquartered there for 11 years until the house was sold. Our home for the next 6 years was in the basement of The City Center Building at 100 West B Street. It was during this time that the *Mommy and Me Program*, an incentives based mentoring program for young women who have a positive pregnancy test, was born.

The year 2004 was a year of great vision and change. It was then that the board of directors made the decision to convert the pregnancy resource center to a medical clinic, offering pregnancy testing and limited obstetrical ultrasound performed by trained, medical personnel. 2004 was also the year we purchased and remodeled our current home at 1746 S. Poplar Street and changed our name to Care Net Pregnancy and Resource Center of Casper. In May of 2005 we received a new ultrasound machine through Focus On the Family's Option Ultrasound Program and performed our first limited obstetrical ultrasound for an abortion bound woman.

Today we are in the process of optimizing our clinic to reach even more women who see abortion as their best or only option. As a result, we are making changes in our marketing, in the way we interface with patients, in the services we provide and in the way we follow-up with patients. It is our goal to attract more abortion-minded women, to serve them with excellence and to see them carry their babies to term as the first step in a process of transformation. We are working to insure that Care Net Pregnancy and Resource Clinic of Casper is **the first choice** for every

woman in Casper who finds herself in the midst of an unplanned pregnancy.

Since our opening in 1987, more than 7500 women and families have walked through our doors.

**Pregnancy Tests Performed: 270**
